POKER

POKER

ROCKERS

ROCKERS

This card deck is inspired by the game "OMORI" by OMOCAT. The font on the cards comes directly from the game, and the suits are designed in a way to imitate the style. The characters on the face cards are also designed around their given character models from the game. This deck tries to capture the childlike quality of the game, while also still maintaining some of the darker themes without getting too graphic, as the game does deal with some heavy topics.
